\*After a change of possession TF is called (i.e. own possession and no possession), the restart will take place in the same relative spot 20 yards laterally from the goal. The one exception is offside. When possession is awarded via offside the restart will take place at the midfield "x" in the offensive half of the field – free clear.

Note: Any time serving TF (opponent possession) will restart at the same relative spot 20 yards laterally from the goal, except when the penalty occurs in the offended team's defensive half of the field. In that case the restart will take place at the midfield "x" in the offensive half of the field – free clear.
